

Quick Ship - Powder Coat Color Palette

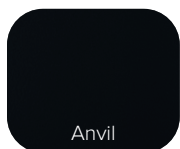

At Site Pieces, we've curated a refined palette of colors designed to complement a wide range of environments. All of our powder coats are a polyester TGIC-free, super durable finish to provide excellent weather resistance for high-performance because we know you expect the best.

- pretreatment & curing process
- aluminum surfaces are bead blasted to provide superior powder adhesion and smooth finish
- excellent weather resistance
- excellent UV-resistance
- 5-year finish warranty
- additional RAL colors available upon request
- colors and finishes shown are approximate**

Standard Colors (Glossy Finish)

Forged Finishes (Fine Texture)

* Dark Bronze provides a metallic smooth finish with satin sheen.

**Colors and surface finishes are shown for reference purposes only. Final powder coated results may differ, and minor variations in color, texture, tone, or gloss are a normal part of the finishing process.
